

Trade Mission to São Paulo

01-06 April 2017

*registration open until 28 February

Why São Paulo?

Located in the Southeast region of Brazil, with **42 million inhabitants**, the state of **São Paulo is the largest economic and industrial hub in the whole Southern Hemisphere**. São Paulo generates over 33% of Brazil's GDP - a volume bigger than countries like Argentina, Indonesia, Netherlands and Turkey - and 43% of the country's services. With 20 million inhabitants, the metropolitan region of São Paulo is the **3rd largest urban cluster in the world** and the industrial and commercial centre of Brazil.

São Paulo is the headquarters of over **60% of the multinationals operating in Brazil** and is the venue for **75% of all the trade fairs** organized in the country. Regarding infrastructures, São Paulo is home to the Port of Santos, the biggest container terminal in Latin America, ca. 60 big shopping that welcome over 90M visitors/month and 59 streets with specialized commerce.

Aerospace and defence industry, agribusiness, food, automotive, green economy, machinery and equipment, real estate, oil & natural gas, health and life sciences, financial services and IT are some of the strategic business sectors with a strong potential for development.

This moment is expected to be the turning point for Brazil. With the foreseeable ending of the economic shocks of 2015 and 2016, and assisted by a weaker currency, the recovery of the economic growth should be noticed already in 2017. The necessary resolution of the politically uncertain scenario, together with the market and international trade predictable further opening – Brazil registers values far below in this indicator when compared to its Latin American pairs –, are expected to boost the Brazilian economic growth, which will favour the companies who decide to invest in the Brazilian market now.

Why take part in this trade mission?

The PPCC Trade Mission to São Paulo is the perfect occasion to personally assess business opportunities in Brazil and find potential trade partners in the market. **This is the second time we are doing a trade mission to São Paulo, after the great success in 2016.**

We are organizing this trade mission with the **Portuguese Chamber in São Paulo (POR)**, because POR proved to be a fantastic partner last year and we think it's crucial to have the local support from an institution with ties to other Portuguese-speaking countries.

The trade mission will have a **strong B2B focus**, with individual meetings with potential business partners, according to each company's profile, and will include meetings about Brazilian tax laws, certification and procedures. We believe a strong awareness of the market's reality is of the utmost importance for sustainable success.

Who should take part in this mission?

This multi-sector trade mission is aimed at every company that wants to internationalize their activity to Brazil or establish commercial relations with the market.

What are the objectives?

This trade mission intends to provide the participant companies opportunities in the market and contact with relevant local players in their business sectors. The main goals of the trade mission are:

- ✓ **get acquainted with the business environment in the country;**
- ✓ **B2B meetings with companies and entrepreneurs in São Paulo, according to each company's profile;**
- ✓ **contact with important local partners;**
- ✓ **contact with the Portuguese Chamber in São Paulo (POR);**
- ✓ **develop a contact network with local Governmental institutions in order to support investment in Brazil;**
- ✓ **know the main sector players in the market, the competition and the consumers' profile;**
- ✓ **establish contact with the Polish companies already operating in the market;**
