OUR METHODOLOGY

We invite you to take part in the business mission organized by the Polish-Portuguese Chamber of Commerce (PPCC) with the support of our local Partner, the Portuguese Chamber of Commerce and Industry (CCIP).

The business mission will have a **strong B2B focus with individual meetings with potential business partners and according to each Polish company's wishes.**

We also provide necessary information about the market (tax system and procedures), key players, competition and consumers' profiles.

We believe that in-depth and direct knowledge of the market reality of the country is of the utmost importance for sustainable success.

The trade mission is organized in close cooperation with the Portuguese Chamber of Commerce and Industry, a well-connected and proactive private business association, supporting the companies since 1834 by promoting both national and international development of its members, as well as serving as the link between SMEs and large companies.

We export to 55 countries and our wish was to broaden our presence on the Portuguese market. Thanks to the methodology of Polish-Portuguese Chamber of Commerce we were able to hold several b2b meetings which resulted in transactions with new Clients in 2022. The trip was well organised with interesting relationship with other Polish participants.

Małgorzata Gill-Bakalarz
 Export Manager, Antonius Caviar

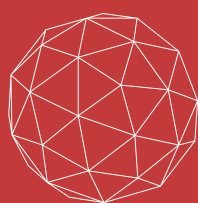

Our company took part in a business mission organized by PPCC in Portugal in 2022. From the very beginning, the chamber showed great professionalism, taking into account our needs, requirements, the agenda of the meetings was tailor-made, previously agreed and approved by us. After the meetings, we could count on their support in follow-up with foreign companies. For us, the greatest success was establishing cooperation with a leading distributor several months after the mission was completed.
